Student Expectations for this Course: (BARK Chart) <ul style="list-style-type: none"> ● Respect yourself and others—this includes being courteous to your peers and their contributions, teachers, visitors/guests and property of others ● Arrive to class on time and prepared—this includes being in your seat when class begins, having appropriate materials out and ready, a charged Chromebook, and being ready to participate ● Turn in completed homework assignments on time—homework is considered incomplete if there is not a reasonable attempt at every assigned problem, and considered late if it is not completed before class begins ● Create your own work—unless otherwise stated, all work should be completed individually with the exception of assistance by me, a tutor, or another math teacher ● Abide by the school rules as stated in the school handbook—the school rules and policies are an extension of my classroom rules and will be enforced 	Remediation Statement: Remediation for Quizzes: Quiz Corrections - Students may redo every problem missed on a separate sheet and attach it to the original quiz. Students may earn back up to a 70% Remediation for Tests: students must obtain a “Request to Retest” form from their teacher. Students must then provide proof of three things they did to remediate. Turn in the form with a parent signature as well as all the proof of remediation attached to the original test and schedule a time to retake the test (outside of class time). The retake test score will replace the original score. Remediation options are available for Unit Exams. These options will not affect the Unit Exam grade.						
Teacher Expectations for this Course: <ul style="list-style-type: none"> ● I will be available for you both during class and outside of class when you have questions. I will push you to do the very best that you can do. I will provide feedback to you in a timely manner and help you to reach your goals. 	Extra Learning & Help Opportunities: <ul style="list-style-type: none"> ● By Teacher Appointment
